

## Letters of Thanks & Appreciation from Advertisers, Schools, Endorsers and Friends

Hi Linda, I love the idea of your mag, and I love that it's so diverse. If I had young children it would definitely be one of my first 'go-to' resources. There certainly wasn't anything remotely like this even in print form when my lad was little.

Regards

Michelle (Hay House Publishers – South Africa)

### THE FOLLOWING LETTERS ARE FROM THE LOUISE L. HAY – HEAL YOUR LIFE TEACHERS IN SA

Fantastic Linda!

I have a database of approximately 3000 clients/students and colleagues whom I have met and worked with.

Thank you for posting our website link, and it is even more fantastic that Hay House is also there, since we share the same 'mum Louise'.

You are amazing and I thank you for your generous support!

I am in awe Linda, Spirit always brings to me, leads me and guides me towards meeting such amazing people with such humbling and touching experiences like you have.

I had a similar incident, except for my son lived and his girlfriend passed on. This experience has rendered me such a blessed opportunity to start a project called 'Love is the Bridge'..... I will share it with you some time.

Know and believe that as you live out this passion, Vincent shines brighter in his journey... such legacy he has left behind, and you are sharing it with us all. Thank you for listening to your soul.

I want to spend some time just soaking in your story, and I shall work on the editorial this weekend, for now I send you such love and admiration for who you are. I support your magazine with all of me and I shall ensure I share it with every person I meet, such magic must be spread.

*Much Gratitude and immense joy*

Hey darling

Thanks so much for coming to see us. Now you can see that Ashika's doors are always open as is her heart. I have never met someone who embraces Louise's work so passionately as she does. She is a true inspiration to me and many others.

Its up to you now to take it further. By doing what you are doing you are already shining a light for everyone who happens upon your digimag as there will always be a message in there somewhere. Its mags like yours that create those wonderful 'Aha' moments for many.

Wow Linda

This is awesome. This is art at its best. The background is talking to me. The color itself express my feelings. I look at the background and I can feel the emotions that go hand in hand with the article.

You brought life to this article. Like a child, I am rolling on the floor and kicking my feet in the air.

Thanks Linda. You are simply the best. This is the ideal world that I'm talking about, with ideal people like you. Wait until every child in the universe reads the article!!

Once more thank you!!!

Alcan (HYL teacher)

**Hi Linda**

**Thank you so much for putting such a beautiful spread together for us. Much appreciated.**

**Love and light**

**Debs (Teacher for Heal Your Life SA)**

Hi Linda

I only got a chance to read the HYL articles now.

I continue to be in awe of our connection to spirit. I felt guided to write my article on self esteem, you have beautifully set out the articles, Leila Summers article 'A journey to self love' flows so brilliantly from mine, explaining in more detail how it is possible to learn to love ourselves'.

Thank you Linda for this wonderful forum to share this work.

In love and light

Varushka (Heal Your Life SA teacher)

**NOTE FROM EDITOR - This next letter comes from the USA, regarding the Save the Rhino campaign that they are working on with EWT. Olivia and Carter are youngsters who have headed up many campaigns around the world. OMG – stands for ONE MORE GENERATION.**

Linda, you're amazing. Thanks for all the help. We are totally dependent on the SA government telling us when we can come over to meet with President Zuma. If they say we should be there, next week, we will. If they say come over in August, then we will make that happen as well.

All letters mailed to us need to be scanned-in. We are investigating the possibility of having the letters printed out on a large (scroll type) canvas which could possibly be used as an art exhibit and travel around the world so everyone can see and read the amazing letters and beautiful drawings kids have sent us before it ends up on display in SA so South African's can see that the whole world is wanting to help them save Rhinos.

Thanks again for mentioning the campaign to your visitors and please continue to do so. If you have a few schools that need more time to collect letters, just let us know, we want them to have enough time to collect as many as they can.

One final question, Olivia was reading through your magazine last night and she said that she loved it. She wanted to know if she could possibly create such a magazine for OMG. Do you have a software program that is easy to use that you could recommend? Both Olivia and Carter are so creative, I would love to see what they come up with.

Best regards from the entire OMG Team ;-)

Jim

Thanks again for everything and especially for looking in your bag-of-tricks to see if you can help us make contact with the right person who could help facilitate a meeting with President Zuma. BTW, where are you located and where would there be a few schools for the kids to visit?

Dear Linda

Firstly I would like to tell you that my heart just sang as I read along the beautiful pages of this edition! What a celebration in memory and honour of a loved one. May the messages within these articles continue to embrace the Montessori educational spirit lovingly here in our diverse SA. I have been a Montessorian for 27 years now and our little pre-school, Timlin, is still proudly taking it's place as part of the educational excellence forum here in Grahamstown, in the Eastern Cape. As so many of us directing schools have had to rely on subscriptions of Montessori magazines from the USA and UK, and some local attempts for inspiration over the many years, we now literally can press a button! Congratulations to everyone on your panel.

I would certainly like to contribute editorial and will be in touch.

Kind Regards

Dear Linda

Congratulations on this new endeavour. I have been away and just catching up with past emails.

Of what I read I felt comfortable with and pleased that a magazine writes from a Montessori perspective. This should definitely encourage growth of authentic Montessori schools here in South Africa, which is what we need more than anything.

We do have a website which I am happy to have linked. [bluemoonmontessori.co.za](http://bluemoonmontessori.co.za) and we take many photos, yet again I need to get parent permission.

Will get back to you soonest

Kind Regards
